MEMORANDUM FOR: Deputy Director for Operations

FROM: Director of Central Intelligence

SUBJECT:

25X1

I have had three security fellows since I have been here who I thought might make good operations officers. One, went into CT training. The second one had a wife who didn't want him to go overseas. The third one is who is leaving my security staff to go to the reinvestigation staff. You might find it worthwhile to have someone take a look at him as a CT candidate.
